

## Exploratory tests report

Tester: Katarzyna Machura		Document ID (unique ID) 2.0
		Date: 16.2.23
<b>Application:</b>  Name: Pomodoro- kanban  Link: <a href="https://testujpl.gitlab.io/pomodoro-kanban-test/">https://testujpl.gitlab.io/pomodoro-kanban-test/</a>		
<b>Environments:</b>  1. Google Chrome: Version 109.0.5414.120, 4 bit  2. Microsoft Edge: Version 110.0.1587.46, 64 bit  3. Firefox: Version 110.0, 64 bit		
<b>Session duration:</b> 95 minutes		
Test design time: 10 minutes	Testing time: 60 minutes	Report time :15 minutes
<b>Charter:</b>  Time reset while performing a task and observation of any changes in timer in 2 options: one when user wants to give up the task and second one when user changes mind and wants to carry on with the task.  Checking if user got an option of stopping the timer within 10% of set time but no longer than 10sec (intentional and not)		
<b>Bugs found:</b> <div>1.App in all environments resets the time to set time when user first wants to stop the task but then changes mind (option nope) or if user clicks somewhere else on a screen. BUG ID 0.1</div> <div>2. App in Microsoft Edge resets time and once time is completed (15sec on this occasion) timer sets on 59:59. BUG ID 0.2</div> <div>3. App opened in Firefox sometimes removes a name of the task when</div>		<b>Issues:</b> <div>App opened in Microsoft edge once had a case as described in point 2 but when I tried to do it again later in a day it was reset the time to the beginning of the set time.</div>

transferring for TODO to IN PROGRESS. Happened for 5 in 10 tasks. BUG ID 0.3	
4.App opened in Edge and Firefox got problems transferring tasks form IN PROGRESS to DONE section. BUG ID 0.4	
Tests completed in 100 %
