Exploratory tests report

Tester: Katarzyna Machura	Document ID (unique ID) 3.0
	Date: 17.2.23

Aplication:

Name: Pomodoro- kanban

Link: https://testujpl.gitlab.io/pomodoro-kanban-test/

Environments :

1. Google Chrome: Version 109.0.5414.120, 4 bit

2. Microsoft Edge: Version 110.0.1587.46, 64 bit

3. Firefox: Version 110.0, 64 bit

Session duration: 120 minutes

Test design time: 10 minutes	Testing time: 110 minutes	Report time :15 minutes

Charter:

Checking if app is adding pomodoros after each completed task and if app remembers number of already collected pomodoros after closing the app later the same day.

Bugs found:

Issues:

1.App in Google Chrome counted 6 pomodoros but 7 task were completed. All the other environments were fine.
BUG ID 0.5

2. I encountered problems with name of tasks disappearing in Microsoft Edge again- as described in report no 2.
BUG ID 0.3

3. I experienced problems with transfer tasks from IN PROGRESS to DONE section- as described in report no 2.
BUG ID 0.4

I opened app in Google chrome later the same day and it was counting pomodoros correctly.

It doesn't mention anywhere after how many tasks is breaks are happening. There is no option to change it to user needs.
